- ▶ Sorbents, Pads & Socks.
- ▶ Facility Protection

Spill Kits and Eco-Packs to ensure Compliance

Be prepared for emergency spill response with spill kits designed by experts with speed and cost in mind, these mobile kits are perfect for quick, on-the-go spill response. We offer one of the largest available selections of spill response kits: Choose from sizes that range from 5 to 160 gallons in absorption capacity and select from kits that are completely equipped with material-specific solutions. Whether you need durable Universal spill kits stored in an overpack drum to clean up spills of oils, solvents, coolants and water, or oil-only spill kits for oil spill response, or you work with hazardous materials and need chemical spill kits to clean up spills quickly while keeping your employees clean, SCI assembles the right kit for your needs.

Sorbents – Universal, Aggressive & Recycled

Universal Recycled - combines superior strength, high absorption and excellent drape-ability to give you durable yet flexible clean-up power. Preliminary product testing shows capacity of up to 18x pad weight (2 gallons per pound of material). Naturally flame retardant due to pre and post-consumer polypropylene content.

Universal Fine Fiber – Product consistency and uniformity our Universal Fine Fiber sorbents are manufactured using state-of-the-art Accurate Products technology. Fine fiber outer cover stocks are ultrasonically welded over a high-loft meltblown core. Pads and rolls are perforated for easy and exact use. Quick wicking - Low-linting with high adsorbency - Dimpled for strength - Perforated to help minimize waste - Excellent for catching drips near leaky machinery or for quick spill cleanup - *Drum-top pads are pre-cut for perfect fit on 55 gallon tight head drums*

Spill Control, Kits, Pallets, Storage & Containment Solutions

Save Green by Going Green

Raymac is proud to present its newest, greenest, and most economical product line ever! Saving the earth and your budget, these Best Sellers are now offered in green made from up to 100% Recycled material! Not only will you meet regulations, but you will exceed your expectations of earth-friendly containment by using these pallets, workstations, 65-Gallon overpack and 95-Gallon overpack as seen on page one.

Polly Dolly – Most Popular

A U-shaped barrel platform and double looped strap make for easy loading. A lightweight design, kick plate, and rolled-grip handles make for easy tipping. Large 10" wheels and ergonomic design make transport easy and trouble free. Poly-Dolly®, the multi-functional two wheel dispensing station, takes the dolly out of the Industrial Revolution and into the 21st Century. It transports 55-gallon drums with ease, tilts to become an efficient self-dispensing station, and acts as its own secondary containment unit. By reducing unnecessary and dangerous drum handling, Poly-Dolly® protects workers, improves efficiency, and helps improve profits. Made of long-lasting tough polyethylene, Poly-Dolly® is strong enough to withstand daily bumps and scuffs and will not rust or corrode..

Polly-Dolly Features

Eco-Poly & Polly Salvage Drums

POLY-OVERPACK® 20 & 30 Salvage Drums

Versatile units that can directly contain solids and sludges with security. Half-turn lids these ergonomically designed units allow for easy access, unlike competing "hoop-ring designs" that need a bolt and nut. The 20-gallon unit accepts bottles, cans, and 5-gallon pails, while the 30-gallon unit can contain up to 16-gallon drums. Units are also nestable, which allows for ease of shipment. Save on shipping cost and storage space!

POLY-OVERPACK® 95 SALVAGE DRUM

Our Poly-Overpack® 95 meets Group 1 packaging standards and salvage drum regulations. Our Poly-Overpack® 95 safely contains a wide range of hazardous materials including: acids, corrosives and damaged parts—in 55-gallon drums. Tight, secure and leak-free container closing is simple; place any long object, like a wooden 2x4", in the handy lid slots and turn to screw the lid down tightly.

POLY-OVERPACK® 65 SALVAGE DRUM

Just the right size for 30-gallon drums

Our Poly-Overpack® 65 meets Group 1 packaging standards, Salvage Drum regulations, and is designed to fit 30-gallon drums. This overpack nests for easy storage and has a lid gasket for secure containment.

Over a Thousand More Items Available including Safety & Storage Cabinets, Dispensing, All Salvage Drums and more
